BEEBE, ARKANSAS

papoose 70

Students, students, students...and more students ...just "faces in the crowd." Lonely faces, happy faces, faces full of hope...future faces of the world. They face a new day...look for knowledge ...and sleep. They share...discuss...plan. They study.

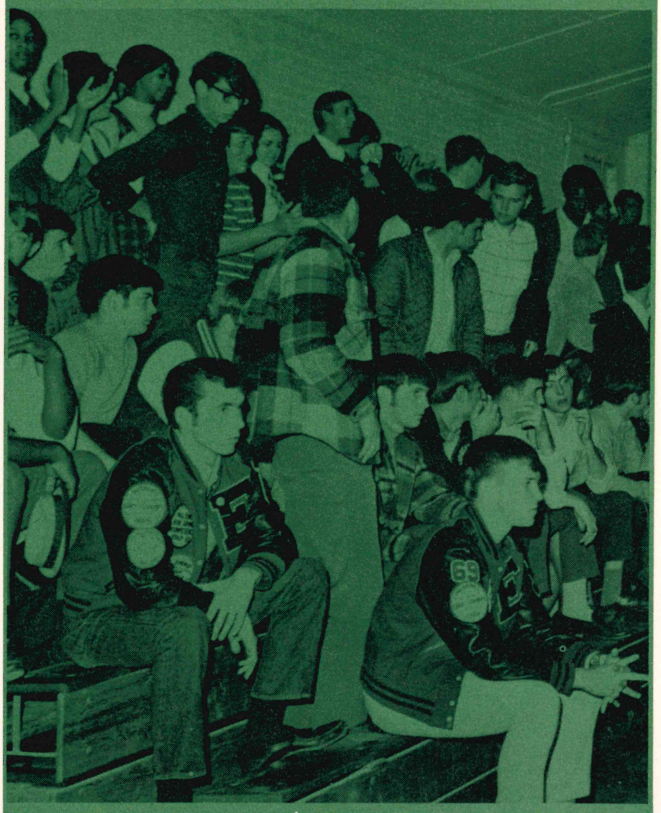
Faces through the long day...smiling... sad...silly faces. Facing books...pencils... midnight hours...the stench of lab...rehearsals...term papers...problems...hurried lunches. Then...they relax...go to the game...to the big dance, and...when there's nothing else to do...more study.



The days turn into weeks...and then into months...as another year goes by. Lest we forget, remember the "faces in the crowd."
